

Patent claims:

1. A cosmetic or dermatological wipe, where the wipe consists of a water-jet-consolidated and/or water-jet-impressed nonwoven material, which has been moistened with cosmetic and dermatological impregnation solutions which have a viscosity of less than 2000 mPa·s.
2. The wipe as claimed in claim 1, wherein the weight ratio of the unimpregnated wipe to the impregnation solution is chosen from the range from 1 : 1 to 1 : 5.
3. The wipe as claimed in any of the preceding claims, wherein the impregnation solution consists of oils including silicone oils and/or lipophilic substances and/or less than 0.5% by weight of water, based on the total weight of the impregnation solution.
4. The wipe as claimed in any of the preceding claims, wherein the impregnation solution additionally comprises one or more water phases in addition to one or more oil phases and is in the form of a W/O, O/W, W/O/W or O/W/O emulsion, a microemulsion, a Pickering emulsion, a sprayable emulsion or a hydrodispersion.
5. The wipe as claimed in any of the preceding claims, wherein the impregnation solution consists of more than 90% by weight, based on the total weight of the impregnation solution, of water.
6. The wipe as claimed in any of the preceding claims, wherein the impregnation solution is based on alcohol.
7. The wipe as claimed in any of claims 3 to 6, wherein the impregnation solution comprises one or more cosmetic or dermatological auxiliaries, additives and/or active ingredients chosen from the group: moisturizers, waxes, surfactants, preservatives, antioxidants, dyes, plant extracts, UV filters, pigments, deodorant and antiperspirant active ingredients, dermatological active ingredients and perfume.
